

DORIAN'S STORY

When Dorian Myers emigrated from Mexico she was 24 years old and had not had adequate dental care or regular cleanings. She first visited Dr. Adams with teeth so unhealthy that she immediately required multiple root canals and three separate bridges. Over time Dr. Adams has performed many complex dental procedures on Dorian including implants and veneers. Now Dorian has a gorgeous, healthy smile.

Many years ago Dorian's employer dropped their dental insurance coverage. She went to other dentists, but felt that none of them provided the quality of care or high caliber of work she had received from Dr. Adams. Dorian decided that her dental care from Dr. Adams was so important that she paid out of pocket herself to remain a patient. Dorian has now been a patient of Dr. Adams' for 22 years.

"Dr. Adams is meticulous and demands excellence from her lab, staff and especially herself. I know she recommends what is best for me. She gives 1000% of herself and so I trust her 1001%."

– Dorian Myers, patient since 1986
