

Visit Our Newly Remodeled Office!

Dr. Adams has just remodeled nearly every square inch of her dental office in Chula Vista. From the waiting room to the treatment suites, she wanted to give patients, staff and the dentists an even more functional and relaxing place to keep teeth healthy. Our technology has always been elite, and now our interior spaces are, too. Come in and see for yourself our beautiful dental office. So much like a tropical resort, you'll forget you're at the dentist!
